

“ Gotronic lead the way with their SMS Updates.”

Ever wanted to know the position of the job you sent away for repair yesterday?

Perhaps just before that meeting it would be nice to have information to hand regarding a repair?

As part of our continual improvement scheme, we have developed a new service which is provided **FREE OF CHARGE.**

We will send to you a brief message describing the progress of your current job with gotronic. This message will include your job reference and should you require a more detailed analysis of that particular job then you are free to call us for further information.

All you have to do to be included in this new service is fill in the lower section, including your name, company, email address and of course your mobile phone number and **fax to us on 0121 520 6226** or hand it back to your gotronic representative.

If there is a colleague who may need to be included in our new service then please let us know their information and we will include them in any correspondence.

Jason Mansell.
Director.

Please include me in your new SMS Updates.

Name

Company.....

E Mail.....

Mobile Phone Number.....

**PLEASE FAX BACK on 0121 520 6226
or return with gotronic representative.**
